SUSTAINABLE

by Design

CORE Parks are designed to minimise the impact on the environment and contribute to building sustainable communities in locations we invest.

CORE Milton Keynes Sustainability and Wellness features

Net Zero Carbon development

BREEAM 'Excellent' Shell and Core accreditation and EPC 'A' ratings

Our strategic partnership with Altus Power will enable clean electrification as a ready-to-go solution for customers at CORE Milton Keynes.

Additional PV installation, through our funding partner, can provide up to **2MWp** of renewable energy to **offset operational carbon** at reduced cost to standard network supplies.

100% PV ready roof structure; 10% base-load PV installed

Material selection and constructions underpinned by Carbon Footprint analysis

95% re-use or recycling of site-won materials

15% rooflights and facade windows to warehouse loading areas

Fully controlled, ultra-efficient LED lighting internally and externally

Waste segregation and recycling facilities

Sustainable storage and discharging of rainwater. Water conservation appliances

Cycle, scooter, motorbike shelters and shower/changing facilities

Multi-modal EV charging (cars, HGVs, cycles, scooters and motorbikes)

Energy and fuel monitoring and management systems

Onsite and offsite biodiversity and ecology enhancements

Landscaped amenity and wellbeing areas

Enhanced building envelope thermal performance

Direct access to immediately adjacent Milton Keynes Redway for cycling, running, walking or wheeling

Net Zero Carbon Construction

CORE Milton Keynes has been delivered as a net zero carbon development in accordance with the latest UK Green Building Council Net Zero Buildings Framework and 2023 Offsetting Guidance certified by PlanetMark.

A Whole Life Carbon assessment has been undertaken to reduce embodied carbon within our construction. The remaining carbon has been offset using Gold Standard & American Carbon Registry schemes located in our areas of operation in Europe and the United States that both remove carbon dioxide from the atmosphere and avoid increases in global carbon emissions.

12 UN Sustainable Development Goals achieved:

Additionally,
52,266 trees
planted through Eden Reforestation.

Carbon Summary

13,133 tCO₂e (399 kgCO₂e/m²)

Total volume of embodied carbon cradle to practical completion at CORE Milton Keynes verified by PlanetMark.

1,950 tCO₂e reductions

Volume of carbon reduced through material selection, re-use and recycling during construction.

Trammell Crow Company

The #1 developer in the USA has landed in Europe.

\$17.1BN

PROJECTS IN THE PROCESS*

\$13.4BN

PROJECTS IN THE PIPELINE*

*as of June 30, 2023

Trammell Crow Company is the largest commercial real estate developer in the United States. The company has developed or acquired 2,900 buildings valued at nearly \$75 billion and over 625 million square feet. As of June 30, 2023, TCC had \$17.1 billion of projects in process and \$13.4 billion in its pipeline. It employs 650 professionals throughout the United States and Europe.

TCC is a wholly-owned but independently operated subsidiary of CBRE Group, Inc. (NYSE: CBG), a publicly traded Fortune 500 and S&P 500 company.

TCC European Logistics

Fully funded and backed by Trammell Crow Company US, the European Logistics team was established in 2021. The company now operates in nine European countries including the UK. Each Country Head has more than 20 years logistics experience in their respective country. Within the last 30 years, the team has developed over 80m square feet of industrial and logistics space across 12 European countries.
