WWW.POINT36.CO.UK

The site is strategically located within a few hundred yards of Junction 36 of the M62 Motorway, which in turn provides superb access to the entire north of England via the M18, A1(M) and M1 Motorways.

The site also benefits from being positioned within 1 mile from the Port of Goole and is ideally situated to access all of the East Coast ports such as Immingham, Grimsby and Hull.

The site itself sits prominently fronting onto Tom Pudding Way (A161) and sits alongside occupiers such as Croda, Guardian Glass, Tesco and Siemens who are constructing a new £200 million train manufacturing facility.

TREBOR DEVELOPMENTS

We've been paving the way for commercial properties for over a decade. Delivering units from 10,000 sq ft to 1,000,000 sq ft, we made our name implementing straightforward development processes that put sustainable building practices ahead of profits.

Founded in 2008, Trebor Developments is today a market leader in industrial development. Through our work with occupiers, agents and financial institutions, we've fulfilled the vision of countless businesses and earned a reputation for intelligent delivery.

Along the way, we've stuck to our belief that development should always be strategic. That's why your business objectives are the starting point we refer to when approaching any project. The same is true of the spaces we build to let. Everything is managed so that all stakeholders feel represented by the final outcome.

Most importantly, we have skin in the game. We're a private, owner-managed organisation with no PLC or string of shareholders to report to. Decisions are made quickly and we apply a more hands-on approach in order to make your business, our business.
