Valuation

Current rateable value (1 April 2023 to present)

£18,500

This is the rateable value for the property. It is not what you pay in business rates or rent. Your local council uses the rateable value to calculate the business rates bill.

How the rateable value is calculated , Hide

The Valuation Office Agency (VOA) uses a ‘rental’ method to value industrial properties like factories, warehouses and workshops.

The VOA gathers information about rents paid for industrial properties. It analyses the information and works out a price per square metre. To get the price per square metre of an individual property, the VOA considers things like property age, location, physical characteristics and features.

The price per square metre is multiplied by the property floor area to get the rateable value.

Plant and machinery, car parking and land that add to the rateable value are shown separately in the valuation.

This property is part of [valuation scheme 601137](#) which includes a price for floor areas and property features.
