Description

Unit 8 comprises a modern terraced unit constructed in 2015. The building is of steel portal frame construction, with part brick, steel profile clad and glazed elevations. Vehicle access to the warehouse is gained via a sectional up and over insulated loading door in the front elevation. Internally, the facility has a minimum clear eaves height of 6m.

At the front of the unit there is a separate personnel entrance with a security shutter. At first floor there is an enclosed mezzanine which would be suitable as an office or additional storage.
