

# Airedale House

**1,190 sq ft**

Refurbished office to let

Albion Street, Leeds **LS1 5AP**

# Airedale House

Airedale House is a 6 storey building providing high quality office accommodation on floors 3 to 6.

The vacant office accommodation is situated at 3rd floor level and has recently undergone a comprehensive refurbishment to provide high quality office space.

## Space that works

Innovative energy efficient work space that benefits from the following specification:

**Energy efficient design**

**PIR controlled LED lighting**

**Suspended ceilings**

**New kitchenette**

**Double glazed windows**

**Comfort cooling**

**Two 8-person passenger lifts**

**Male & Female WC facilities**

# Unrivalled location

Airedale House is prominently situated on Albion Street within the heart of the prime commercial district of Leeds City Centre.

The Property benefits from being in close proximity to an abundance of restaurants, bars and retail stores. Airedale House is also within a short walk of the Trinity Leeds shopping centre, as such it provides the perfect location for staff convenience and client entertaining.

Albion Street is a busy pedestrian thoroughfare benefiting from excellent public transport links with numerous bus stops and Leeds City Station within a short walk.

# Ready for immediate occupation

## Accommodation

The last remaining suite available in Airedale House is on the 3rd floor and comprises 1,190 sq ft (IPMS).

## Terms

The last remaining suite is available by way of a new full repairing and insuring lease for a term of years to be agreed.

## Sustainability

### Energy Saving Technologies

Thermal modelling has been undertaken to target key areas to improve the buildings insulation characteristics.

'Intelligent' lighting systems within office areas, incorporate daylight and passive infrared sensors to reduce energy consumption.

### Financials

The Government paid annual subsidy (Feed in Tariff) will be transferred to the service charge. This provides a long term financial cash benefit to reduce the running costs of the building.

EPC rating of B. This is extremely important considering ongoing discussions to levy differing business rate multipliers dependent on EPC level.

### Energy Harvesting Technologies

A 6kWp Photovoltaic solar panel system is installed on the roof which will generate electricity for the core areas of the building.

By utilising these technologies it is anticipated that there will be a 25% reduction in CO<sup>2</sup> emissions.

Innovative  
energy  
efficient  
work space
