LOCATION

Baytree Leeds is located within the Stourton Industrial area, approximately 3 miles southeast of Leeds city centre. The Leeds Rail Freight Terminal lies immediately to the north of the site and a purpose-built Royal Mail depot is immediately to the east.

The scheme has a strategic significance due to its proximity to Junction 7 of the M621 motorway, located immediately to the north-west which links in to the M62 for destinations north and west, and to the M1 motorway heading south. The A639 trunk road provides a link through to Junction 44 of the M1 motorway approximately half a mile to the east. The M1 motorway (north) provides links through to North Yorkshire and the North East of England.

Major occupiers close by include Royal Rail, Sheffield Insulation Group, Tuffnells Express Parcels, ARLA Foods, CEMEX, Kloeckner Metals, Steaper Group and First Direct.

DESIGNED WITH FLEXIBILITY FOR FUTURE CHANGE

Offices constructed with the flexibility to increase office areas or provide for ancillary uses if required

Underground ducts are installed in the service yards and car parks allowing for additional future installation of EV charging

Provision of underground ducts and drainage facilitate future expansion or reconfiguration of the office areas

Dock faces are designed to accommodate a wide variety of vehicle types

TECHNOLOGY ENABLED

BIM models hold digital reproductions of building data which facilitate the Operation and Maintenance of the buildings

Remote access is provided to the building management systems

Solar powered USB charging benches are provided to external areas

Sensor suites are installed to continuously monitor:

- Lighting energy usage
- Office areas heat mapping
- Office & Warehouse occupant numeration via 4D sensor
- Office Indoor air quality – CO² Levels
- Office indoor temperature
- Office indoor humidity levels
- External Air Quality
- External Noise levels

HEALTH AND WELLBEING OF BUILDING USERS

A roof garden is provided to Unit 2 incorporating relaxation areas and raised bed planters

Outdoor multipurpose recreational and relaxation areas are provided for occupiers of the estate

Bike shelters are installed which include provision for electric cycle charging points to be powered by solar PV via battery storage

Translucent panels are installed over the dock faces to introduce natural light to the internal marshalling areas in the warehouses

Refreshment stations are provided in the reception areas

CLEAN AIR WATER SOIL AND ENERGY

Electric vehicle charging stations are provided

The use of air source heat pumps negates the need for gas usage

Enhanced use of recycled and recyclable materials specified using Circular Economy principles

Super tight airtight insulated building envelope to reduce heating requirements

10% rooflights to the warehouse roofs

Roof mounted solar PV systems power wall mounted batteries in the reception areas producing night time power

Permeable paving is used in external areas to mitigate shock charging the site drainage systems in storm conditions

Reindeer moss walls in the reception areas improve air quality and absorb noise

A CO₂ absorbing “City Tree” is installed at the site entrance which doubles as a signage totem

BREEAM “OUTSTANDING”

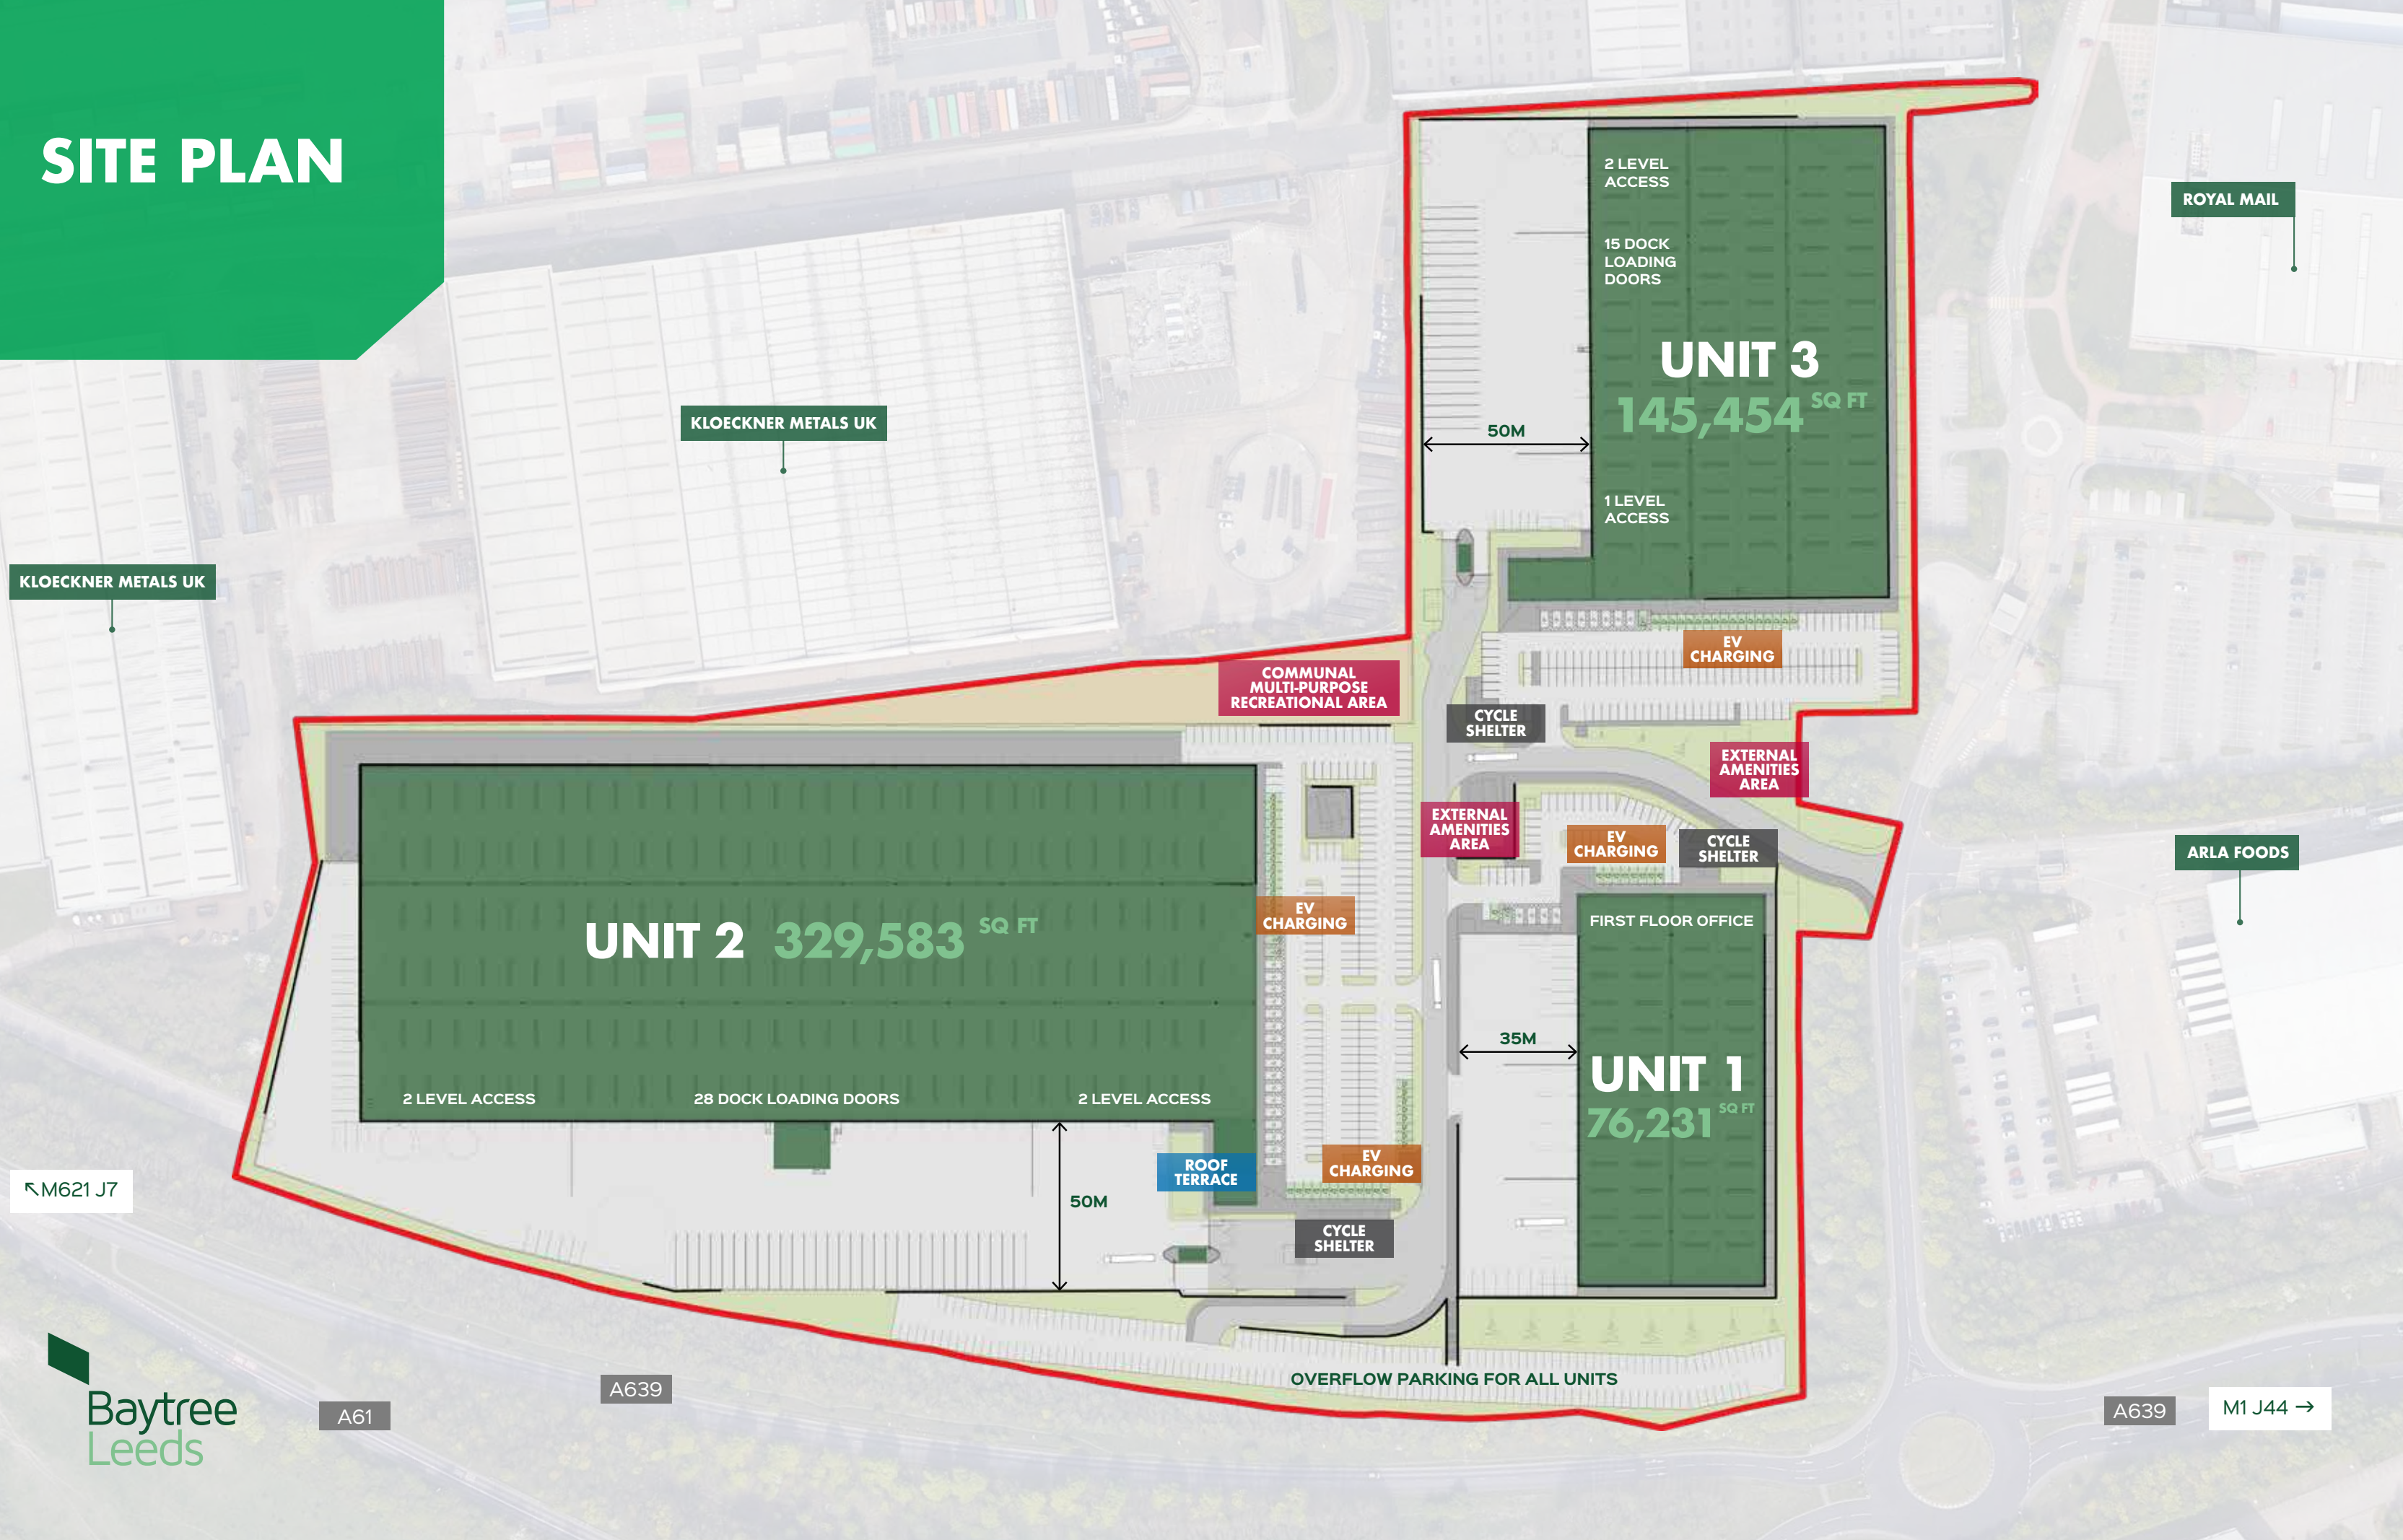

EPC-A

Designed using WELL building standard principles

Materials specified using the UK Green Building Council “Circular Economy” selection hierarchy

LABOUR

LABOUR

Leeds is the fastest growing city in the UK and is halfway through an ambitious £10 billion regeneration programme. The Leeds City Region has access to over 3 million people, including a skilled workforce of 1.4 million. Baytree Leeds is situated in an ideal location for attracting a strong labour pool, with over 65% of the population qualified to NVQ level 3 vs 61% in Great Britain. There are over 600,000 households within a 30 minute drive time, meaning Baytree Leeds can attract its workforce from a wide area.

The city also boasts the UK's biggest manufacturing employment base, generating £7 billion a year, or 12% of the region's economic output and is the third largest manufacturing centre by local authority area, home to over 1,600 manufacturing firms.
